AMUSEMENT? TO-NIGHT.

GROVER'S THEATER -Edwin Booth to-night takes his first and only benefit, and will appear in his great part of "Iago," in Shaks-peare's play of "Othello." Mr. Chas. Barron will personate the Moor. Mr. Booth has been playing here now for some time, and as this is the only benefit yet given him he deserves a bumper, as he has done much to please his

FORD'S THEATER .- Mr. J. S. Clarke commences an engagement at this popular theater to-night, and will appear in two glorious comedies, viz: as "Jeremiah Beetle," in "Babes in the Wood," and as "Paul Pry." Clarke is so well-known here as a first-class comedian, that he will undoubtedly draw full houses. He has always been popular in Washington.

THE DAVENPORT BOYS gave another entertainment last night, and among their visiters were many distinguished individuals, and all were again completely mystified. They are certainly very clever performers, and their tricks are among the best performed by any sleight-of hand performers going.

MAGIC .- Prot. Wiseman will give another of his really interesting magical soirees to-night at Washington Theater. The Professor does a great many wonderful things, but he lays no pretensions to receiving aid from the spirit world; but this does not make his entertainments the less interesting.

CANTERBURY .- Miss Dora Dawson, the double-voiced singer; M'lle Medea, the premier dansense, and the Sanford Troupe of gymnasts and pantomimists, are the main attraction at this hall just now. But the old regular company also do their part well, and succeed in pleasing the audiences.

VARIETIES .- Miss Kitty Lee, Miss Maggie Vernon, Miss Eliza Florence, Mons. Baptistin, Maggie Friel and Lina Windell, together with a fine corps of Ethiopians and a troupe of pantomimists and gymnasts, will give another fine entertainment to-night at the Varieties.

MASONIC VISIT TO THE FAIR .- Two Commanderies of Masons, under command of Grand Commander B. B. French, will visit the fair at the Patent Office to night. They will be in full regalia, and for this occasion, at least, will prove an additional source of attraction.

THE PAID STEAM FIRE DEPATTMENT .- The following are the provisions of the bill establishing the paid steam fire department, as passed by the City Councils:

Section first provides that there shall be an pointed immediately after the passage of the act five fire commissioners, who shall draw lots for their terms of office-one being appointed for one year, one for two, &c., and annually in the month of June one shall be appointed, who shall serve five years. The commissioners are to be appointed in the same manner as city officers. Section second provides that the Mayor shall,

In case of a commissioner refusing or neglecting to perform his duties, on being certified thereof by any two of the commissioners, fill the place by a new appointment to serve the balance of the term; and in the event of a vacancy he shall fill the place in like manner. Section third authorizes the appointment of a clerk to the commissioners, who shall also act as clerk to the chief engineer, at a salary of seven hundred dollars.

Section fourth gives the commissioners power to appoint the requisite number of persons to perform the duties set forth in the bill, (excepting the chief engineer,) who shall hold their places during good behavior; to suspend or expel members; to adopt uniforms for the officers and men, and adopt rules and regulations for the government of the department.

Section fifth provides that the department shall consist of three steam fire engine companies, of foreman, engineer firemen hostler, and six extra men each, and one hook and ladder company of foreman, hostler, tillerman, and six extra men, and as many supernumeraries as the commissioners may deem necessary. Each engine company shall have one steam engine, one hose-reel, three horses, and one thousand feet of hose; and the hook and ladder company shall have one truck, with all the hooks, ladders, &c., and two horses.

Section eight fixes the salaries (payable monthly) as follows: Chief engineers, \$1,200; foreman of each company, \$600; engineers, \$600; firemen, hostlers and tillerman, \$400; and the extra men \$100 each. The paid members of the department, except the extra men, shall give their undivided attention to their respective

duties. Section nine authorizes the commissoners to locate the companies at such points as they shall deem expedient.

Section ten provides that the chief engineer shall be appointed; sother city officers are appointed, for a term of five years, and that he may be suspended or removed for inattention or neglect of duty by a majority of the fire commissioners, with the apprebation of the Mayor. Section eleven makes it the duty of the chief engineer and the paid members of the depart. ment, in case of fire, to repair immediately to

such, and take the proper measures for extin-

guishing the same.

Section twelve gives the chief engineer sole command at fires over all other officers and members of the department and other persons present, and he shall take the proper measures for the extinguishment of fires and protection of property and the preservation of order. He shall examine the condition of the engines and other apparatus belonging to the department as often as necessary or whenever the commissioners or Mayor may direct, and annually report to the Mayor. He shall cause a full description of the same, with the names of the officers and members, the amount of property destroyed and amount of insurance, to be pub-lished in one of the city papers. When the houses or apparatus need repairs he shall cause the same to be made, provided the cost does not exceed twenty dollars, and if above that sum he shall first procure the assent of a majority of the commissioners. It shall be his duty to receive the reports from the various companies and transmit them to the commis-

Sioners. Section thirteen provides that in the absence of the chief, the foreman of the company in whose district the fire may be to perform his duties. The foremen should keep all fire-plugs and reservations in their respective districts in perfect order.

Section fourteen makes it the duty of commissioners to prepare rules and regulations for the government of the companies, and furnish the members with copies of the same, and directs them to give notice that they are prepared to receive applications for membership of the "City Fire Department."

Section tifteen appropriates \$20,000 for the purchase of apparatus, under the direction of the commissioners, with a proviso that not more than the sum named be expended during the current fiscal year.

Section sixteen prohibits any person not a member of the department from wearing any part of the uniform or badge of the depart. ment, under a penalty of from five to twenty dollars-one-half to the informer. Section seventeen provides if any person

detace or in any manner destroy any of the ar paratus, or hinder any apparatus or member of the department from passing along the street, or prevent any apparatus or fireman from working at fires, they shall be fined not less than five nor more than fifty dollars. Section eighteen vests the chief engineer and foreman, in going to, at fires, or returning from fires or alarms of fire, with full police power. Section nineteen provides that the act shall go into immediate operation. Section twenty repeals all inconsistent acts.

THE GREAT FAIR.-Within a few days past the managers of the patriotic fair at the Patent Office have had occasion to acknowledge the receipt of several very handsome donations, among which were \$100 in money from H. G. Fant, of the firm of Rittenhouse, Fant & Co.; \$50 from the mechanics of the Government repair shops on 2ist street; a lot of fine drygoods from Joseph J. May, No. 308 Pennsylvania avenue, valued at \$150; a double vacuum steam engine, valued at \$200, from Mrs. F. W. Seward; and a beautiful door, grained in imita-

tion of oak, and ornamented, valued at \$15, from W. H. Hamilton & Co., No. 562 7th street. The Public School Department acknowledges, among other gifts, two sp lendid cakes from the establishment of Mr. A. W. Tompkins, 1106 Chestnut street, Philadelphia. These cakes were afterwards purchased by the teachers of the Second District, and presented to Mayor Wallach and W. J. Rhees, Esq., as a slight evidence of their appreciation of the labors of these gentlemen in behalf of the cause of edu-

cation. To-night there will be an interesting event at the fair, in the visit of the Knights Templar. The Grand Lodge of the Independent Order of Odd Fellows, at their meeting last night, woted to accept an invitation to visit the fair. and will do so on Friday night, the 11th, accompanied by various subordinate lodges.

ASSAULT AND BATTERY WITH INTENT TO KILL.-Yesterday afternoon roundsman Kelly, of the Fourth Ward, arrested Chas. H. Lomas, colored, for shooting at U. Hancock, conductor of the street railway, on Monday night last. Lemas was taken before Justice Kinsey, who sent him to jail in default of \$1,000 ball for further hearing. Lemnel Bailey, who was with Lemas on the occasion, was also arrested by officer Johnson of the Third Ward, and taken before Justice Rowland, who committed Bailey for a hearing in default of \$500. It was stated that the shots were fired at the conductor near

21st or 22d streets west. AUCTION SALE OF DRY GOODS .- K. Hexter & Co, auctioneers, have for two days past been disposing of a fine stock of dry goods at auction, at their rooms. No. 251 Pennsylvania avenue. The sale will be further continued to-morrow, and as the stock embraces a splendid splendid assortment of goods, parchasers destring bargains should not fail to attend. See advertisement.

BIBLE SOCIETY .- At the last meeting of the Board of Managers of the Washington City Bible Society the committee appointed to ascertain facts and report on the propriety of a re-supply of the Hotels of the City with copies of the Bible, presented a list of the designations, locations and names of the proprietors of all the Hotels in the City, and of the progress thus far made in ascertaining facts; arriving at tae conclusion that a re-supply, or a first supply where not before made, is not only proper but

highly desirable. After disposing of various points, as, for instance, what should be recognized as a hotel, &c., the whole subject was committed to the judgment and discretion of the committee, with instructions to prosecute as rapidly as possible the supply of those hotels the proprietors of which manifest a desire to have their houses furnished, and at the same time to co-operate with the society as proposed in the original

resolution On written application by a known and responsible party, a donation of thirty medium sized Testaments was made to an evening school of colored perso as in the Seventh Ward, with the understanding that when practicable the books should be sold and the proceeds returned to the treasurer, and that when any one connected with the school found destitute is desirous of obtaining, and unable to purchase, such should be supplied gratuitously in the name of the society, and the number thus distributed also be reported to the depository, in order that the proper entries may be made.

BADLY BURNT .- This morning an aged colored woman, named Lethy Tanner, residing on the corner of Fourteenth and H streets, was badly burned, by her clothes taking fire from a grate; but, notwithstanding her feebleness, she had her presence of mind, and seizing a rug, wrapped it around her, extinguishing the flames; not, however, before her face and hands were badly burned. Dr. Hatch was immediately called in, and dressed her injuries. She is upwards of ninety years of age, and during the administration of President Jefferson she was his housekeeper. She came originally from Maryland, where she was a slave of the Belt family, but for upwards of forty years she has resided in the house in which she was burnt. Her recovery, on account of her age, is doubtful.

ASSAULT AND BATTERY.-Last night, officer Crown arrested Margaret Shea upon a charge of assaulting and beating an old woman, named Mary Kennedy. The prisoner is a young woman, and was taken with her children, an infant and a little girl of three years, and by her own choice, they were locked up with her in the station-house. They occupy the same house. and the complainant attempted to stop the accused from splitting wood on the pavement, and the accused turned upon her and struck her with a piece of wood. Justice Giberson held Margaret Shea to bail for peace.

DEATH FROM OLD WOUND .- Yesterday Mr. Enoch Ward, formerly a pawnbroker on Louisiana avenue, near 9th street, died from the effects of a wound inflicted by his son-in-law. Geo. W. Bennett, over a year ago. The wound was inflicted with a pistol ball, which was never extracted. Bennett was tried and convicted in the Criminal Court, but a new trial was granted, when he was found guilty of an assault, and he was sentenced to pay a fine.

A DEAR SHAVE .- Yesterday morning John Shalee, a soldier, went into the barber shop of Antonio Maurice, on C street, near the depot, to be fixed up for a visit to his home, having his hair cut, being shaved, &c. After the job was completed he was charged \$5, and paid it but he immedia ely called Officer Meredith, who arrested the barber on the charge of swindling, and he was taken before Justice Ferguson, when he refunded \$3.50 of the money and was dismissed.

PORT OF GEORGETOWN-Cleared,-Schrs. John Cumberland, Gibson, for St. Mary; Ann Hamilton, Bell, Fortress Monroe; Wm. Peters Eversman, Nanticoke river: Thos. Jefferson, Foss, Philadelphia; S. G. King, Twiford, do.; barges Gen. Worth, Quander, Accotink; steamer Fairbanks, Musbon, New York.

APPOINTED .- Edward T. Peake, a young man of the Navy Yard, has been appointed as Third Assistant Engineer in the Navy.

WE RECOMMEND ALL LADIES to call on Mrr. Prince, 22 Market Space, corner of 8th street. She has been engaged in a first class Millinery business in New York, and has located herself in our city for the purpose of carrying on the same branch here. Her Bonnets are made in New York by persons who have been employed by her for many years, and being copies of Paris Bonnets of her own importation, we are sure that all will be highly pleased with their visit.

ATTENTION is solicited to the large sale of Sts. tionery, Fancy Goods, Photograph A bums, Silver-pated Ware, Clocks, Watches, Jewelry, Table and Pocket Cutlery and Foreign Sea Shells, advertised by W. B. Lewis & Co., to be sold at auction this (Thursday) evening, at 7 o'clock, to be continued on to morrow (Friday) morning, at 10 o'clock, and evening at 7 o'clock, and evening at same hours until the whole stock, amountning to over \$10.000 worth of goods, shall be sold, at the store 427 7th street, between G and H streets. Dealers and others will do well to attend.

On the evening of the 2d instant, at 15 minutes past 10 o'clock, of congestion of the lungs, EMILY LOUISA, youngest daughter of W. W. and Helen M. Jacob, aged 22 months and 24 days.

Her funeral will take place at the rasidence of her parents, No. 625 H street, bet. 6th and 7th streets, on Friday, the 4th instant, at 2 o'clock p. m. The friends of the family are invited to attend, without further notice.

[City papers please copy.]

Cn Wednesday morning, March 24, ALBERT G. WHITON, aged 35 years.

The friends and acquaintances of the family are respectfully invited to attend the funeral, from his late residence, 104 Gay street, Georgetown, D. O., on Friday, March 4th, at 11 o'clock a.m. In Alexandria, of lung disease, March 1st, Mr.
JOHN BINNITT a native of the county Oork, Ireland, in the 38th year of his age. He has been for
ten years a resident of Baltimore.
[Balt, Sun please copy.]

DR. LIGHTHILL

On the Symptoms of Catarrh. The first sensation is usually a feeling of dryness and heat in the nose, and a frequent inclination to sneezing. There is an inability to breathe freely, as the nose becomes stopped up, sometimes on one side, sometimes on the

Soon a clear watery, acrid discharge makes its appearance, excoriating the nostrils, and edges of the lips, which becomes red and somewhat swollen. After a few days the discharge becomes thick, yellowish, extremely frequent, and continues to be a marked feature of he disease, and a source of much danger and the greatest annoyance. After more or less time, it becomes purulent, highly offensive, and assumes an extremely fetid odor. It is usually so profuse as to require, when confined to the nose, the frequent application of the handkerchief, or if it drops into the throat, which is more particularly the case while the body is in a horizontal position, constant expectoration,

Sleep is frequently disturbed by a sensation of choking, caused by the presence of the discharge in the throat. Owing to the heat in the head, the watery portion of the discharge often evaporates, and assuming a condition of solidity, is deposited upon the membrane of the nose and upper part of the throat, in the shape of crusts or hardened lumps. The accumulation of these incrustations produces a feeling of discomfort, and narrows the nasal passages so as to embarrass respiration. Therefore, frequent efforts have to be made to remove them, either by forcibly blowing the nose, or by persistent hawking-a practice as disagreeable to the one affected as it is to those around him. After the removal, that side of the incrustation which adhered to the mucous membrane will sometimes be found bloody, a fact which explains the force required for its dislodgment During sleep these incrustations accumulate more rapidly, and the feeling is therefore most uncomfortable in the morning. Sometimes all efforts to clear the throat are futile until after breakfast or after something warm is swallowed. Some patients state that they are not successful until they have swallowed some whisky or brandy.

The discharge, which is at first without smell assumes in the progress of the complaint an excessively fetid color, the breath participates in this, and becomes occasionally so revoltingly offensive as to render the patient an object of disgust to himself as well as to others. Ulceration of the mucous membrane of the nose takes place frequently, sometimes even attacking the bones, when small particles of that substance will occasionally be found mixed with the discharge. The accumulation of the discharge, together with the thickened condition of the mucous membrane, renders respiration through the nasal passages very difficult, and oftentimes impossible, necessitating respiration principally through the mouth-a method very deleterious to the general health, but more particularly so to the lungs, as will be shown hereafter. The unpleasant noise produced during sleep, known as snoring, originates from the same cause. The voice loses its musical quality, and assumes a disoordant, harsh and nasal character; the sense of smell becomes much impaired or entirely lost, and the same effect, though less frequent, is produced on the sense of taste. Occasionally, while blowing the nose, a crackling or bubbling sound will be heard in the ear, and hearing will be found quite thick and stopped up, but returns suddenly with something like a snap-

This phenomenon is usually repeated until at one time, hearing does not return, and remains permanently injured. Noises in the head of every conceivable description will make their appearance and add to he distress of the sufferer, and hearing may be lost so gradually that a considerable ee of deafness may exist before the person is really aware of the fact. The eyes are apt to become weak, irritable, and disposed to water on exposure to cold and wind, or after the slightest exertion. A pain, more or less acute, or a distressing feeling of pressure, is experienced over the eyes, and sometimes on the top or back of the head, and also pain in the face, closely resembling neuralgia, for which it is very often mistaken. The distress in the head weakens the memory and produces irritability and moroseness of disposition. The stomach generally suffers more or less, is weak and irritable; the appetite is capricious, and is nearly always bad in the morning. In severe cases the system becomes feeble and prostrated, and there is an aversion or inability to either phys ical or mental exertion. Not unfrequently catarrh proves fatal, either by debilitating the system and wearing out the patient, or by traveling downward and producing throat affections, bronchitis, and finally consumption It may be safely asserted that after he reditary predisposition, catarrh is the mot frequent and important cause of this fatal complaint.

Dr. LIGHTHILL can be consulted at the EBBITT House, Washington, from Monday morning, February 29, until Saturday evening, March 5, on Catarrh, Deafness, and all diseases of the Ear, Throat, and Air-passages. fe16-eo3w
